

— A ONE-SHEET FOR UX & DIGITAL PRODUCT AGENCIES

Conveo for UX & digital product.

Usability and concept testing, at the cadence of sprint planning.

Your design team ships in weeks, not quarters. Your research should too. Conveo runs prototype testing, usability sessions, JTBD, and concept work in days, with **screen-sharing, Figma stimuli, and visual analysis of every UX interaction** built in, so insight lands before the next planning meeting.

Why agencies choose Conveo

- 01 Test the prototype, not the deck** — Native Figma embeds: real participants click through your interactive prototype inside the interview.
- 02 See what they actually do** — Screen-sharing for live web and app flows. Visual analysis captures hesitation, switching, and the workaround.
- 03 Recruit who you need** — 8+ panel partners, plus self-recruited custom panels for niche audiences or your own user list.
- 04 Probes that go deep** — AI moderator follows up on the unexpected. Conversation goes where the participant takes it, not just where the guide does.
- 05 Outputs your PMs will read** — Quote reels, narrative Stories, and quality-scored interviews ranked by richness so the team starts with the best.

Built for product and design research

 01 Figma stimuli Embed your interactive Figma prototype directly in the interview. Secure, no context switching, no brittle links.	 02 Screen-sharing Live screen capture for web and mobile flows. See exactly where they tap, click, and stall.	 03 Custom panels Upload your own contacts, or your client's user list, and recruit on top of the 8 integrated panels.
 04 Visual UX-interaction analysis Multi-modal video reads what they did on screen: hovers, hesitations, dead-ends, and the workaround they invented.	 05 Quality Scores Auto-ranks your interviews by richness. Start the readout from the strongest sessions.	 06 Quote reels & PDF guides Captioned video clips for stakeholder review. Printable topic guides for client sign-off before launch.

Compliance & security

SOC 2 Type II	● Certified	ISO 27001	● Certified
HIPAA	● Compliant	ISO 42000	● Lol signed
GDPR	● Fully compliant	Data residency	Global / custom
Training on your data	● Never	Access control	RBAC + study fencing

How UX teams use Conveo

Prototype usability testing

Concept validation

JTBD interviews

Onboarding flow research

Mobile-app screen-share

E-commerce checkout study

Diary & longitudinal

Comparative competitor walkthrough

Stimulus types: Figma prototype, live URL screen-share, image, video, copy blocks. *Ask your Conveo contact if you want to have a look.*
